a concise guide to grammar usage and style includes appendices on irregular verbs  
verb preposition combinations commonly confused words and misspelled words

compiled in a to z format this modern dictionary of english grammar defines and  
describes the older traditional grammatical and linguistic terms as well as the wider  
phonetic and transformational grammar nomenclature

despite a history of hundreds of years of research analysing aspects of english  
grammar there are still open problems which continue to baffle language researchers  
today such grammar mysteries arise for a number of reasons because the language is  
changing because different speakers of the language adhere to distinct norms and  
thus introduce and maintain variation in the system because there are differences  
between the grammar of spoken and written english this book illuminates some of  
the complexities of the subject the areas where new discoveries await and why it  
matters through a series of accessible and engaging case studies on various aspects of  
grammar from multiple negation to possession the authors present grammar as an  
intellectual challenge this book brings out into the open questions about language  
usage to which we still do not have good answers in a bid to make variation overt  
and to revel in the mystery of the english language both aimed at the interested  
general reader and the beginning student of english language and linguistics this is a  
fresh take on grammar

reprint of the original first published in 1867

written by a team led by a world authority in english grammar english grammar for  
today has established itself as a rich educational experience for both native and non  
native speaking students this engaging and stimulating coursebook enables students to  
learn grammar not just for its own sake but also for the pleasure of exploring  
appreciating and understanding the way language communicates in written text and  
spoken discourse throughout the emphasis is on using grammar in present day english

after an introduction placing grammar in its educational and cultural context the authors present a toolkit for analysing sentences the second part of the book demonstrates how to apply this toolkit to spoken and written language using a wide range of real textual materials each chapter ends with a set of carefully designed exercises and tasks to aid understanding with answers provided at the end of the volume now thoroughly revised and updated to meet the needs of today's students this new edition features a new foreword by the English Association an additional introductory chapter getting started with grammar which introduces the subject for those with no prior knowledge improved and extended diagrams exercises and answers up to date textual passages and examples lively and approachable this indispensable guide is ideal for both students and teachers who are looking for their first serious engagement with or wishing to rediscover English grammar

embark on a comprehensive journey through the intricacies of the English language with comprehensive English Grammar Guide from basics to competitive excellence this meticulously crafted book serves as your trusted companion in mastering every aspect of English grammar ensuring not just proficiency but excellence dive into fundamental concepts unravel mysteries and elevate your expertise with advanced topics the book offers hands-on practice exercises addresses common errors and provides valuable insights into writing speaking and listening skills more than a guide it's a companion for students professionals and language enthusiasts unlocking the full potential of the English language

grammar can often be seen as a dull and complicated art with all sorts of dusty and quirky rules that are hard to understand and even harder to explain this descriptive grammar of English by example shakes off the dust to present the essential principles of modern English grammar as clearly as possible showing the simple rules that determine the standard practices of modern English both in writing and in speech and illustrating their use through hundreds of simple examples and familiar expressions most native speakers generally follow the essential rules of English grammar as if by intuition in many cases they will be quite unaware of what the rules are even that they exist but rules or principles or guidelines do exist and without them it would be very difficult to communicate properly and coherently grammar is the highway code of any language and people need either to learn it or to absorb it subconsciously in order to speak or write proficiently children master the rudiments of grammar in their native language by hearing remembering repeating

and experimenting and up to a point this is sufficient for everyday communication however beyond a certain level and more importantly when learning a second or foreign language some awareness of the rules and principles of grammar becomes useful and in many situations vital some understanding of grammar is indeed essential for anyone wanting to teach english whether it be to native speakers or as a foreign language by highlighting literally hundreds of short sentences and expressions this descriptive grammar of english clearly illustrates and succinctly explains the rules that govern acceptable usage of the english language today where necessary it uses colour coding to show up pertinent points and to contrast different structures or functions this is not a grammar book for grammarians it s a grammar book for anyone and no prior knowledge of linguistics is required as befits any discussion of grammar it uses the expressions or jargon that are required to explain grammar but also explains them by including a glossary of grammatical terms which will be of value to most readers originally conceived for the benefit of non native speakers of english particularly advanced efl and esl students and teachers of english as a foreign or second language it is also very much suited for school and home use in english speaking countries in short it is for anyone who is looking for clear and example based explanations of how english works and is written and spoken it covers all the main points of english grammar in a way that is understandable to any student as well as explaining the essential aspects of english grammar such as verbs and nouns and adjectives it includes succinct and clearly illustrated sections on such important points as style word order and punctuation it distinguishes where appropriate between the usages of written and spoken english and between british english and american english all the points covered in this grammar are copiously illustrated with examples from everyday english including memorable and familiar expressions that are hard to forget children are not the only ones who learn their grammar by example

bound set of catalogs of textbooks and educational apparatus published in london england
